SAFETY

NET PAYLOAD FOR YOUR BED RACK

- ◆ Maximum load per BED RACK CROSS BAR is **50kg**.
- ◆ If two cross bars are fitted the total payload is **100kg**.
- ◆ Load must be evenly distributed and adequately secured.
- ◆ Any weight carried on the BED RACK will adversely affect its handling, particularly in cornering or in a cross-wind, the vehicle should therefore be driven with increased discretion.
- ◆ Regularly check the tightness of the securing clamps and the security of the load.
- ◆ Attention is directed to statutory requirements regarding maximum permissible projections from vehicles.
- ◆ If accessories are attached to the bed rack, one cross bar must be fitted at all times.
- ◆ All bolts should be checked prior to touring to ensure the BED RACK is fastened correctly

GENERAL CARE AND MAINTENANCE

By choosing an ARB BED RACK, you have bought a product that is one of the most sought after 4WD products in the world. Your BED RACK is a properly engineered, reliable, quality accessory that represents excellent value. To keep your BED RACK in original condition it is important to care and maintain it following these recommendations:

- As part of any pre-trip preparation, or on an annual basis, it is recommended that a thorough visual inspection of the BED RACK is carried out, making sure that all bolts and other components are torqued to the correct specification. Replace any components as necessary.

Please contact local Authorised ARB Stockist if you would like to have this service carried out on your behalf.
